Need Help?

Looking for help with getting logged into the Planner or finding your way around it? CYM Communications Coordinator Holly Spencer will be in the Reception Area 12:45 pm - 1:15 pm CDT and ready to help you find your way.

Offer Help?

Get involved! Talk with Laurel Beyer (frequently seen in the Reception Area, organizing!) about how you can pitch in to make the Gathering run smoothly. If we all do a little, a lot gets done!

We are particularly looking for "tech" help. If you're even a bit tech-curious, join in one of the tech sessions Sunday to see where you can contribute. There are lots of simple tasks, like zoom hosting in the session you were already planning to attend. The sign-up sheet is in the reception area.

Zoom Name Changes

Would you like to update your Zoom name to include Meeting and location- but it resets every time you rejoin a different meeting session?

You can update it for all your zoom meetings by updating your Profile. Go to the web address https://zoom.us/profile and log in, then choose "Edit" next to your name, and it will show the option of updating your "Display Name" and you can add Meeting and location. Just remember to change it back after CYM is over!
